PROFESSIONAL SUMMARY

I am a **React.js-trained front-end developer** with over two years of experience. My area of expertise is using **HTML, CSS**, and **JavaScript** to create engaging user experiences. I can bring your concepts to life, assuring smooth interactivity and dynamic, responsive layouts thanks to my excellent grasp of frameworks like **React.js**. I'm dedicated to creating user-friendly interfaces that inspire deep interaction while also captivating users.

SKILLS

- **Languages: -** Java Script,Java,
- **Web development:-** React js , HTML, CSS, NodeJS, git, github, JIRA, Bootstrap, Material UI library, Postman
- **Others : -** DataStructure and Algorithms, Object Oriented Programming

WORK EXPERIENCE

Accenture Software Pvt Ltd   **Pune, Maharashtra**
Associate Application Developer 07/2021 - Current

- Worked on a Fortune 500 company's internal task management platform for the healthcare industry.
- Worked closely with cross-functional teams to ensure the application's seamless integration and efficient operation, including designers and backend engineers.
- Leveraging React's built-in state, hooks, and other features to implement state management.
- Through the use of caching, lazy loading, and code optimization techniques, improving the performance of applications.
  React.JS | Node.JS | Material UI

PERSONAL PROJECTS

- **E-Commerce Website: Link** Built a robust e-commerce platform utilizing **JavaScript**, **HTML**, **CSS**, and **Firebase**. Leveraged the power of **hooks** for enhanced functionality and seamless user experience.
- **UserCard Connect: Profile Showcase:** Link is my responsive web project, featuring a user directory with clickable member cards. Each card displays user names, post counts, and leads to detailed profiles. The profiles include real-time clocks synchronized with selected countries and an elegant post display. I implemented a user-friendly pop-up feature for complete post content viewing. using **HTML/CSS, JavaScript | React.js |Node.js |REST API | JSON.**
- **Weather App**: Link Developed a dynamic weather application using **HTML**, **CSS**, **JavaScript**, **React**, and **REST APIs**. Integrated real-time weather data to provide accurate forecasts and create a user-friendly interface.
